GLAMOROUS BRIDAL MAKE-UP

A classic red lip then can be a great choice to add a touch of glamour to your wedding day look. If you prefer a simpler look, skip the khaki shadow and focus on the winged eyeliner and mascara.

GLAMOROUS BRIDAL MAKE-UP

Step-by-Step

Step 1: Prep skin

Prep by applying **Génifique Serum** and then **La Base Pro Pore Eraser** in the central panel of the face using fingers to combat shine and to help keep skin matte.

Step 2: Apply the Base

Apply **Teint Idole Ultra Wear foundation** to the centre of the face then blend it outwards, working with the natural tones in the face.

Step 3: Conceal and set

Use **Le Correcteur Pro** under the eyes in a V shape and round the nose. Use the Corrector shade first to combat any pigmentation or dullness in the skin, and then blend with the concealer shade. Set with the powder from the palette using a small fluffy brush to keep in place. Next, apply **Belle de Teint** all over the face with a large fluffy brush to set the foundation.

Step 4: Define the brows

Use **Sourcils Gel** with a thin or eyeliner brush to define the brow. If you have a fine brow and like to make them look thicker, gel will adhere to skin better than a pencil and create a much more defined finish.

Step 5: Add a pop of colour with blush

Use **Blush Subtil** (we used 022 Rose Indien) and blend in with a fluffy brush to add a pop of colour to the face.

Step 6: Highlight the eyes

Prep the eyes with **La Base Paupières Pro** to avoid the lids from getting oily and creasing the eyeshadow. We used the **Hypnôse Palette** in ST2 Khaki Chic but you can select any palette that works for you. Select shade 02 from the palette and apply with a fluffy brush to dust it right over the eye.

Next, take shades 01 and 02, mix them together and brush them into the inner corner of the eye and then finally shade 04 to the outer corner. Brush away any fall out pigment with a big fluffy brush.

Step 7: Line and Lash

Line the base of the lashes with black Khôl eyeliner (eg, **Khôl Hypnôse Waterproof**) to make them look full for photographs. Blend that out to the outer corners to make your eyes look bigger, and then blend in the same liner to the lower lashes.

Take shade 05 from the **Hypnôse Palette** and blend it out into the liner on the bottom lashes. Apply **Hypnôse Doll Eyes Waterproof Mascara** to the top and then lighter on the lower lashes, for a look of fanned out volume.

Step 8: Line and fill the lips in a classic red

Line the lips and blend inwards to prime ready for the colour. We used **Contour Pro liner** in 111 pro Rouge Ibene. Apply **Rouge in Love** lipstick in 292N Chez Prune all over lips, and then to add depth, also apply a darker shade (we used 379N Rose Sulfureuse from the **Rouge in Love** range) to the centre of the lip for a subtle ombre look that makes the lips appear plumper.
